

Primitive Camping

Whiskeytown has six primitive campgrounds with a total of twenty sites: Peltier Bridge, Horse Camp, Brandy Creek, Sheep Camp, Crystal Creek and Coggins Park. They are all located in the forest at least one mile from the lake.

Peltier Bridge, Sheep Camp and Crystal Creek are now for **tent campers only**.

Horse Camp, Brandy Creek, and Coggins Park may accommodate any vehicle or combination of vehicles, including trailers, RVs, and RVs pulling other vehicles that do not exceed 25 feet in length.

They are considered “primitive” because they do not offer such amenities as running water or flush toilets.

Each site contains a vault toilet, picnic table, bear-proof storage locker, a fire pit with a swing-arm BBQ grill, and a pole for hanging your lantern.

Sites are issued on a first come, first served basis. Primitive camping permits are available **ONLY** at the Visitor Center during open hours.

Drinking water is available at the visitor center. There is a faucet on the outside of the building to the right of the men’s restroom. Water taken from the creek is not potable and must be purified before use.

Some of the sites may be closed during the winter.

Camping with horses: Special reservations may be made for groups with horses at the Horse Camp by calling (530) 242-3412. The fee will be determined based on the group size. Camping with trailers will be allowed. Bring your own tie lines – no corrals available. Potable water may be available on site.

Fees

The primitive camping fee is \$10.00 per night year round. The following will be honored for a 50% discount: Golden Age and Access Passports and the Interagency Senior and Access Passes.

In addition to the campground fee, an entrance pass must be purchased for the use of the recreation area. Display the pass on the dashboard of your vehicle.

Whiskeytown is Bear Country!

All food, pet food, beverage containers, cosmetics, toiletries, cooking utensils, dishes, and other items with food odor must be stored inside your bear-proof storage locker or in your vehicle unless they are in immediate use. Never store these items in your tent.

If you store food in your vehicle, store it out of sight and odor-free. Bears can break into cars, so take care to store food carefully. Bears that get human food sometimes become aggressive and dangerous and must be killed. You can prevent this by proper food storage.

If you do not store your food properly, you may receive a \$150 citation from a law enforcement ranger.
